

# Global University of Boston

# ABOUT GLOBAL UNIVERSITY OF BOSTON

## MISSION

To provide a platform with easy, affordable & flexible learning for the global community

## VISION

To cultivating new-age skills, immersive learning experiences, adaptability, knowledge enhancement, research, and innovation.

The University pledges to elevate societies in underdeveloped and developing nations through high-quality, effortless, and cost-effective educational offerings.

## VALUES

**INTEGRITY** demonstrated by our commitment to the utmost ethical standards in both personal and professional conduct, along with our dedication to transparency and accountability in governance and all our actions

**COLLABORATION** manifested through our interdisciplinary strategy, our emphasis on building partnerships both internally and externally, and our ability to forge new areas of research

**CREATIVITY** evidenced by our embrace of innovative ideas and diverse forms of expression, our pursuit of knowledge, our courage to venture into the unknown, and our entrepreneurial drive

**EMPATHY AND COMPASSION** reflected in our dedication to enhancing human well-being and in fostering the personal growth of individuals within our community

**INCLUSION** manifested through a culture and environment that actively seeks, embraces, and promotes talented individuals from a variety of backgrounds.

**SUSTAINABILITY** demonstrated by our collective pledge to set a precedent in conserving and safeguarding our natural resources, coupled with our strategy for prudent financial management.

# ADVANTAGE GLOBAL UNIVERSITY OF BOSTON

## UNIQUE DIFFERENTIATORS

At Global University of Boston, our main goal is to help you unlock your full potential. With this aim in mind, we've established an extensive support network tailored to foster, uncover, and boost your capabilities.

### CREATIVITY & INNOVATION

At Global University of Boston, our approach centred on creativity and innovation emphasizes the cultivation and encouragement of original ideas and novel solutions. This methodology values thinking outside the box, fostering an environment where imaginative concepts can flourish and innovative outcomes are pursued. It helps students involves continuously seeking and implementing new methods, technologies, and strategies to solve problems or enhance productivity and innovate processes. This focus not only drives progress and competitiveness but also inspires a culture of continuous learning and adaptation.

### ENTREPRENEURSHIP

At Global University of Boston, entrepreneurship is at the heart of our educational philosophy, transcending beyond just a subject to become a core part of everything we do. It's woven into our curriculum, offering students the opportunity to bring their groundbreaking ideas to life at Global University of Boston campus. Through our partnership with the international academicians and leading industries, students gain access to a network of mentors and industry support. The Global University of Boston not only provides seed funding opportunities but also mentoring for exceptional projects, directly on campus.

### RELEVANT SKILLS

In the realms of industry, career, and business, soft skills play a pivotal role in determining success. At Global University of Boston, we place a strong focus on equipping our students with the necessary

skills for both life and career readiness, prioritizing areas such as communication, teamwork, and critical thinking. These skills are systematically integrated into each program, ensuring our students are well-prepared for their future endeavors.

### GLOBAL INDUSTRY EXPOSURE

To ensure our students are prepared for the workforce from day one, it's crucial to complement theoretical knowledge with appropriate industry experience. Our students gain a diverse and comprehensive understanding of practical applications through projects, internships, conferences, and various engagement platforms, facilitated by our connection with global industry partners.

### RESEARCH

At Global University of Boston, we understand that the essence of a University lies in its commitment to high-quality research and the pursuit of sustainable answers to contemporary challenges. We foster research across various academic programs offered by our schools and through projects sponsored by the University, as well as industry partnerships.
